

Migrate to Azure & make your organization more efficient and cost-effective with SA Technologies.

ABOUT SA Technologies For Azure

SA Technologies is a Microsoft Gold Partner which helps you to transform your business through accelerating time to market and lower costs with Azure. SA Technologies seamlessly integrate you with Azure and make your cloud adoption fast, simple and easy. This means you can also innovate and grow faster.

WHAT WE OFFER

SA Technologies brings automation to the decision-making process with Microsoft Azure.

SA Technologies can process massive volumes of complex data and generate insights that directly interact with control systems—bringing automation to the decision-making level.

With Microsoft Azure, SA Technologies helps organizations to meet business challenges.

Azure is an ever-expanding set of cloud services which integrate and manage your environments with tools and services designed for the hybrid Cloud.

Azure gives you insights across all data

Using Microsoft Azure, open API and standard implementation protocols, SA Technologies is able to take in data from any source, ensuring faster ramp up times and a more comprehensive analysis.

SA Technologies helps to future-proof your business through digital transformation.

Azure increases your speed to market and productivity. It automates protection, testing and disaster recovery

WHAT OUR CUSTOMERS ARE SAYING

“By moving to Microsoft Azure, we boost our performance across our platform up to 10%.”

– One of Our Global Leading Client

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
